When in Rome, do as Romans do. So since you're in Bangkok, what's better than to try out some activities that will help you discover the different elements of 'Thainess'. In just one day, you will have a chance to engage in wide-ranging activities such as learning the notorious Thai boxing skills, appreciating the delicate art of folding flowers and visit the place that made Thai Silk well-liked, just to name a few.

As for dinner and the rest of the night, no group event will be held. Instead, you'll have an evening off to spend with your buddy and dine at any restaurant of your choice. If you wish, your buddy can also take you to cool places you have yet to visit. In addition, **you may also take this time to stock up on food and drinks for the case cracking activity tomorrow.** Once again, how you decide to spend this time is entirely up to you.

Electronic Device Collection

On Thursday, your electronic devices will be collected prior to your departure to the case opening ceremony at Thammasat University. The IT team will install an activity monitoring program on your laptop. In addition, all other devices deemed as unfair advantage in the competition will be also collected. This include smartphones, tablets, smart-watches, internet-enabled devices, communication devices and any other devices with similar functions. During the collection process, please bring all of these items with you.

The following are simple pre-collection steps to complete before handing in your devices. Due to a long list of activities lining up for you tomorrow, we suggest you follow the instruction early.

For your **laptop**:

- Log out of all internet accounts such as email and social network applications
- Remove any log-in passwords. If you wish to keep the password, kindly find an email with an attached IT agreement form sent from the IT department. Please fill in your computer usernames and passwords and send the completed form back to the IT department as a reply. This agreement will be printed out and to be signed in the morning of Thursday

For all **other devices**:

- Switch off all alerts, alarms, and notifications on all the devices
- Put all devices in silent mode or turn them off completely

During the case handout, your laptops will be delivered back to you by the committee. However, other devices will be safely kept away until the final round has come to an end. Team leaders, please remember to sign the electronic device collection form as it is a required document to complete the competition registration process.

Thank you very much for your cooperation.

We hope you will have a pleasant stay at the Millennium Hilton Bangkok. You will soon be handed a hotel damage agreement, please sign the document upon receiving.

See you all in the next gazette!
