

Becoming **Office Fighter** for office workers
- Sandie Consulting

Sandie Consulting

Company Overview

Namman Muay's (NMM) reputation in liquid and oil formats enable the company to gain a vast number of athletes and blue-collar users

To create **world class healthcare products** for *better everyday life* and achievement.

Vision

Namman Muay revenue

-30%

sales in 2020 resulting from working sites' closures and lower physical activity

Namman Muay's Main Customers

30% of sales are from *athletes*

Namman Muay's Product

Four formats for different usages

10 sales channels on both online and offline platforms

Key Strengths :

1

Strong brand reputation for being Thai remedy

2

Have a relatively **low price** compared to competitors

3

Being **#1** brand in **liquid and oil** format

Competitor Analysis

Sandie Consulting. *Namman Muay places itself as a lower price for athletic and labor uses*

We have identified top **5** key competitors in Thai Topical Analgesics Market.

		1	2	3	4	5
	Namman Muay	Tiger Balm	Counterpain	Voltaren	Siang Pure	Golden Cup
Current Brand Shares	7%	16.3%	12%	6%	3.5%	3%
Product format	<i>Oil, Liquid</i>	<i>Cream, Patch</i>	<i>Cream, Gel</i>	<i>Gel</i>	<i>Ointment</i>	<i>Ointment</i>
Price Position	LOW	MEDIUM	HIGH	HIGH	LOW	LOW
Unique Selling Point	Affordable, long heritage formulation, #1 in oil liquid format	International brand, Product variety	International brand, good brand image	International brand, good brand image	Affordable, long heritage	Affordable, long heritage
Main target customers	Domestic-focused Athletes, labors	Tourists, General	Foreign customers, General	Foreign customers, General	Domestic-focused Elderly	Domestic-focused Elderly

Namman Muay current position in the market is quite strong with its **top 3** market share ranking, mainly due to its distinct focus on *athletes, domestic* market and *low* pricing.

Sandie
Consulting.

The COVID-19 has severely impacted the performance of the topical analgesics in Thailand...

The effect of covid-19 has impacted varying across customer segments of topical analgesics market...

COVID-19 Impacts to each segment

Elderly (65+)

Moderate

Elderly are afraid to go outside to purchase topical analgesics as they are concerned that health issue resulting from Covid-19 infections could be more severe

Athletes

High

Lock down regulation prevent any outdoor activities

Office workers

Moderate

Increase in unemployment rate but many companies offer WFH unlike blue-collar workers

Blue-collar workers

High

Unemployment rate is higher and No WFH

Tourists

Very high

Border restrictions reduce tourists by 80%

Namman Muay's share in each segment

Tourists made up only 10% of Namman Muay's total sales while athletes is the biggest target group with 30% share of total sales

Dependence on Athletes and blue-collar workers drive sales of Namman Muay down while an almost **independence on tourists** helps Namman muay **sees a lower decrease in sales** than the market (-51%)

Moving forward : To reach an ambitious goal of 350 m revenue, Namman Muay must start prioritizing the new target aside from athletes and blue-collar workers as they are already highly penetrated...

The most attractive target users are office workers as they present high growth opportunity for Namman Muay.

Criteria

1)Market size

- number of population in the segment

2) Competitiveness

- Market concentration (market share of top 3 in each segment)

3) Impact from Covid-19

- Unemployment rate
- Lock down regulations
- Fearness to go outside

4) Recovery rate from Covid-19

- Unemployment rate recovery
- Lock down regulations cancellation
- Fearness to go outside

5) Potential growth

Analyze from

- Current penetration in each segment

Office workers

11.3 M

Moderate

International brands are the leaders, but does not lead by far.

Medium

Increase in unemployment rate but many companies offer WFH unlike blue-collar workers

Intermediate

recover relatively faster than blue-collar workers

High

Elderly (65+)

7.9 M

Low

Highly dominated by "SiangPure" and "Golden cup"

Medium

Elderly are afraid to go outside to purchase topical analgesics as they are concerned that health issue resulting from Covid-19 infections could be more severe

Intermediate

They will still be fear of going outside as their health is the main priority

High

Professional Athletes

6.8 M

Moderate

Dominant players does not lead by far

Huge

Lock down regulation prevent any outdoor activities

Fast

around 98.2 percent athletes stated that they were planning to return to the gym once COVID-19 lockdown measures were relaxed

Low

Blue-collar workers

26.3 M

Moderate

Dominant players does not lead by far

Huge

Unemployment rate is higher and No WFH

Slow

the demand for blue-collar workers will still be in need. However, this may take time to reach pre-covid status as many factories closed down during the pandemic.

Low

Namman Muay already **well penetrates** to these two groups

Namman Muay's current brand image is NOT align with this new target group

Namman Muay is perceived to be *suitable only for athletic and labor uses*, mainly due to 4 factors

1

Packaging

- Product description of "use before and after exercise"
- Unmodern packaging

2

Brand Name

- "Namman" refers to oil and "Muay" refers to boxing in Thai

3

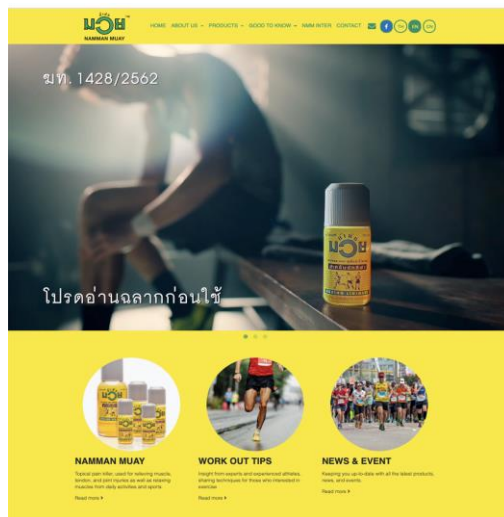

Key product

- Namman Muay is known for its liquid/oil format which is mainly used by athletes and blue-collar workers

4

Company website

- Sports-themed* advertisement video
- Sport-related blog

Despite the effort to differentiate ads to target different group of customers, customers still perceive the brand as being **athletes focus**

Key Question : How can Namman Muay position its brand image to **better match** the target and to gain more **relevance** with young office workers?

Sandie Consulting.

To scope down : Namman Muay must prioritize young office worker generations living in Greater Bangkok to fulfill its goal of reaching 350M revenue

Greater Bangkok

More than **80%** of **URBAN** Thai people suffer from office syndrome...

Target market analysis

	Office worker population	Office Syndrome Percentage	Analgesics penetration	Difficulty to reach during pandemics
Above 65 years old	Almost none	Low	22%	
46-64	Moderate	Moderate	24%	
30-45	High	High	23%	
20-29	High	High	13%	

Namman Muay shall target office workers with the age range 20-29 living in Greater Bangkok area.

Capture the **untapped** opportunity amidst the Upgoing Office Syndrome trend

Office Syndrome is the most common among
Thai young office workers ...

Found in **80%** of office workers aged **20-35**

However, the analgesics use among
population aged **18-29** is the **lowest**

Key Question:

How can Namman Muay increase the usage of
analgesics among young office workers?

Source: Samitivej Hospital, Mahidol, DEGS1, Case Booklet

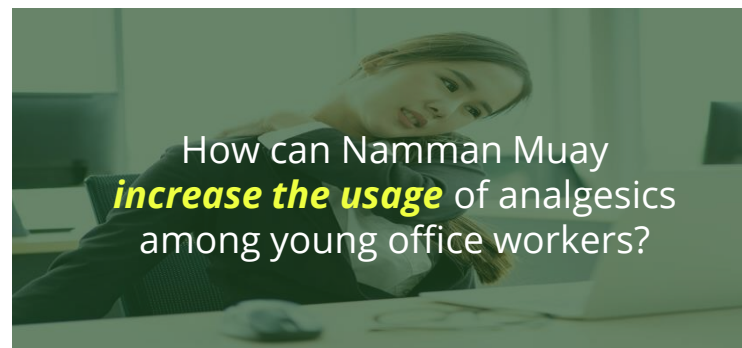

Executive Summary

Objective

To expand the market to the **young office worker group** in the Greater Bangkok to be a main revenue driver gearing towards **THB 350m** domestic revenue *within 2023*

Key Questions

Strategies

"BECOMING RELEVANT"
Establishment of the **endorsed brand** under Namman Muay to specifically target office workers

"TAP INTO THE UNTAPPED"
"2-way fighter" new product with 2 in 1 format that can be used **everyday** for office workers even the pain is not severe

Financials

Domestic
revenue
by 2023

Total marketing
spending per year

A group of people are working at laptops in a modern office setting. In the foreground, a person is seen from behind, wearing large headphones and typing on a laptop. To their right, another person is sitting at a desk, also working on a laptop. In the background, two more people are visible, one of whom is wearing a headset and looking at a laptop. The office has a wooden wall and a window in the background.

Becoming relevant

‘Launch a new *endorsed* brand to better position itself to the white-collar while remaining strong in the original mainstream market’

Devakam Osoth must create a new endorsed brand “Office Fighter” to better position itself among office workers

Since a majority of office workers perceive Namman Muay as product for athletes and laborers, we should focus on developing **brand image** to match this target's preference

The new brand name “Office Fighter”

- To emphasize the product use is for **office** workers

“By Namman Muay”

- Namman muay is a well known brand among Thais
- Help to show **credibility** and **effectiveness** of the product

PROS from the adoption of ENDORSED BRANDING:

- Strong brand image to better connect with office workers
- Detach itself from “**athletes and blue-collar laborers**” brand image
- Minimizing Namman Muay brand reputation risk
- NOT dilute Namman Muay's athletic and laborer's brand image

Sandie Consulting

Building a strong image for “Office fighter” by NMM

NMM should use online channels to promote the presence of “Office Fighter” brand in products for office workers market

1.6M

White-collars,
age 20-29

99%

Have ≥ 1 social media
account(s)

3Hr

Average daily time-spent on
social medias

What is *already great*?

1. Has **core online channels** to connect with customers

2. Has online ads, but the engagement from young office workers is still low ex. FB WFH post has only 10 likes

3. Has contents related to office workers, but they are **not really distinguished**

Office content can be found randomly, while workout tips targeting athletes clearly present on the brand's website

What to add to *become greater*?

1. Add “**Linkedin**” as a new promoting channel for *Office Fighter* to emphasize a brand image of being suitable for office workers

Linkedin is the biggest business and employment-oriented platform

2. Promote *Office Fighter* on channels with high traffic from office workers such as podcasts, radio, or youtube channels

3. NMM website should allocate a section purely for *Office Fighter* to clearly target young office workers

Contains office-related contents

A section specifically for *Office Fighter* help office workers acknowledge the company's efforts to target them

'To increase the usage of analgesics among the young office workers'

Sandie
Consulting.

Customer Insight

Answering their needs to develop the right product and price for them

Age : 20-29

Location : Bangkok and Vicinity

Occupation : Office Workers

Characteristics

- More willing to spend time to understand product **ingredients, efficacy vs side-effect**
- Value good **appearances**
- **Busy lifestyle, love convenience**

Perception towards topical analgesics

- Too **sticky** to be applied during day time
- **Strong odor**
- May have **side effects** such as skin irritation

Pain points

- Suffer **office syndrome** due to long hours of false sitting posture or stress
- Office syndrome can cause inflammation of neck, shoulder and back muscles

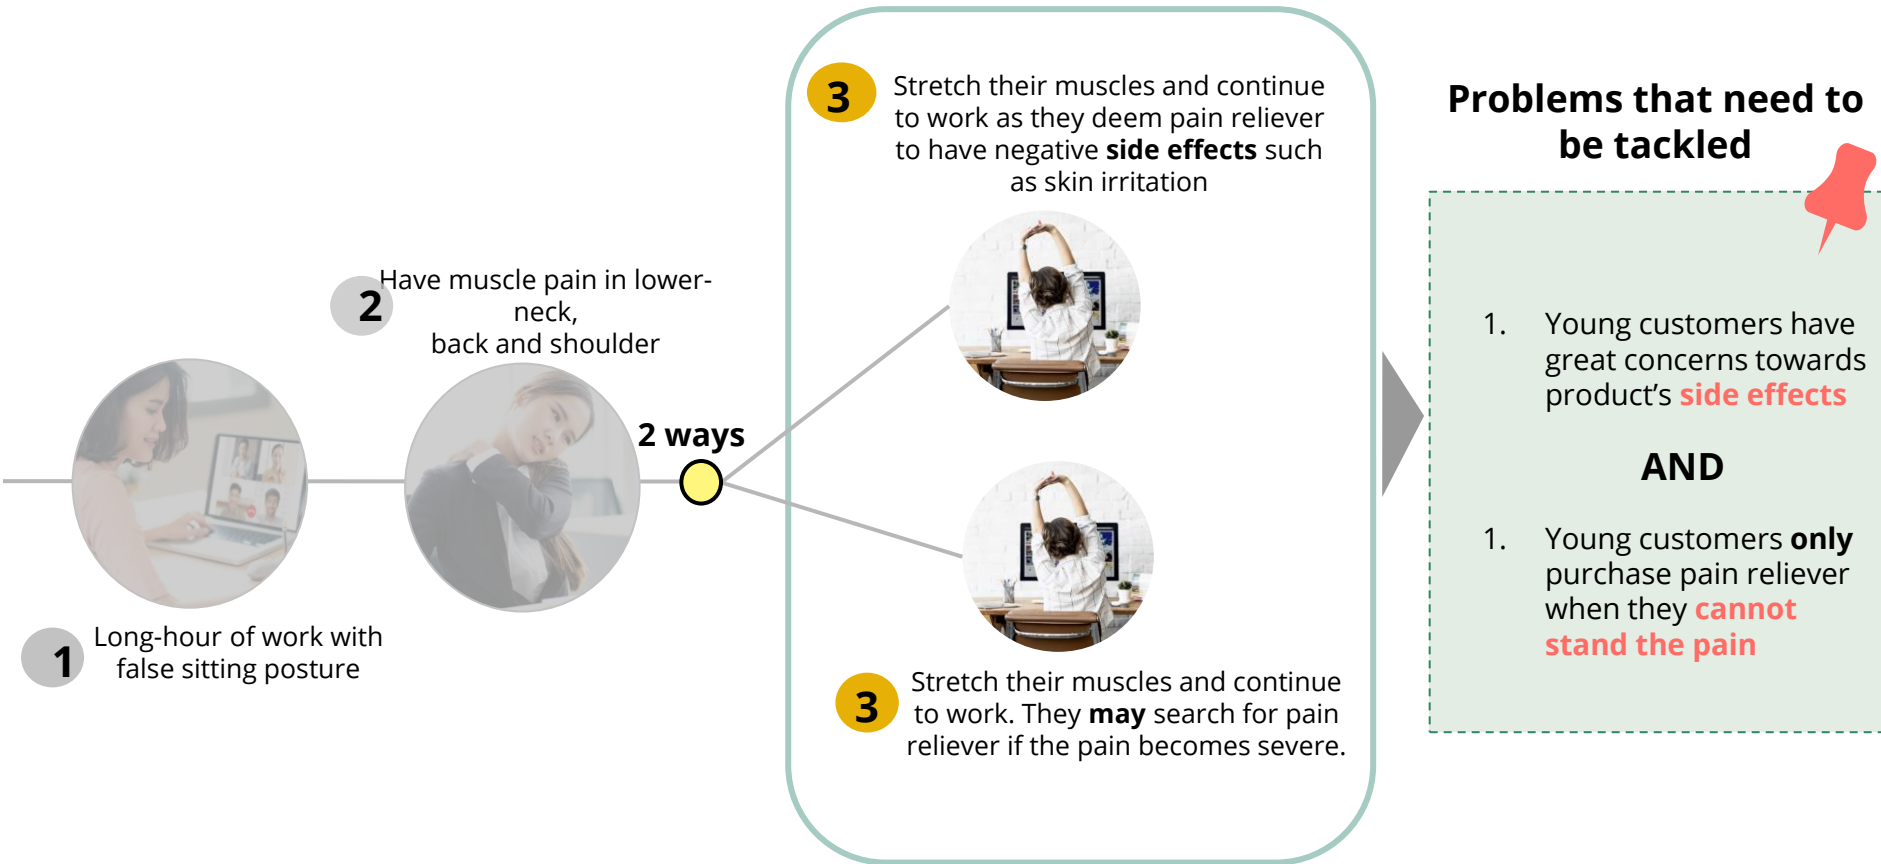

Source: Euromonitor, Bangkok Hospital

Customer Journey

In order for NMM to successfully involved in target customers' journey, it must understand customer journey first

A majority of the target has a low analgesics usage mainly due to two reasons

Customer Journey

In order for Office Fighter to successfully involved in target customers' journey, it must understand customer journey first

A majority of the target has a low analgesics usage mainly due to two reasons

How can NMM change customers' perception that all topical analgesics have negative side effects ?

1

Long-hour of work with false sitting posture

2

Have pain in neck, back and shoulder

3

Stretch their muscles and continue to work as they deem pain reliever to have negative **side effects** such as skin irritation

3

Stretch their muscles and continue to work. They **may** search for pain reliever if the pain becomes severe.

Problems that need to be tackled

1. Young customers have great concerns towards product's **side effects**

AND

1. Young customers **only** purchase pain reliever when they **cannot stand the pain**

Sandie
Consulting.

Create **trusts** in the product

3E Strategy : Educating, Emphasizing and Encouraging should be used to gain customer's trusts in the safety of product usage

NMM products **already include** inflammatory-preventive ingredient. They only require good marketing to channel out this message

- Menthol
Menthol provides anti-inflammatory effect. It can also trigger the cold-sensitive receptors in the skin so it provides a cooling sensation which can treat pain and inflammation well.

What

Why

3E Strategy

Step I : Educating

NMM should create contents to promote the **non-irritative ingredients (Menthol)** in its products on social media

To build customers' understanding that NMM products are non-irritative and have **no to low side effects**

Step II : Emphasizing

NMM should use **celebrity endorsement** to help spread and ensure office workers that NMM products are really safe to use

To build customers' trust in NMM products as this group of customer heavily considers **users' reviews** before they decide to use or purchase anything

Step III : Encouraging

NMM should create posts to encourage office workers to **actually use** the product ex. "Have neck pains? Apply **office fighter** to help fight the pain. Get one now at convenient stores near you"

To lead office workers to **actually use** the product

To increase the analgesics usage, **Namman Muay** must launch a product that can engage in the target's every day lifestyle

"2-way fighter"

Spray

- Well-absorbed
- Not sticky
- Suitable for exercising

Sponge with blending neck

- Suitable for office worker as it relieves pain during working

1

Strengthen the core format

- Prioritize **Liquid in the form of oil in water (o/w/alcohol)** as this format is well-absorbed, non-sticky, and the most famous one of NMM

2

Modern and Convenient Packaging

- **Spray** and **sponge** format (2 in 1)
- Easy application
- Portable size

3

Good Scents - no more smelly analgesics

- Many users do not like the strong odor of topical analgesics
- Add alternative scents that can help **relieve stress** and give out **aroma feeling** such as Green tea, Roses and Lavender

4

Ingredients

- add **herbal ingredient** as customers trend looking for more natural stuffs and it would be perceived as safe product.

Pricing

From our analysis on price of products in the market, there exists an **open price market opportunity point within the range 120 - 140 baht**

The price combining with psychological pricing would be **139 baht**

Implementation

Impacts

The product being a part of **customers' daily lifestyle**

"2-way fighter" can be used to *assist user customers' journey* in everyday activities

Customer Journey

Enjoy your every body **movement** on the way by just a quick **spray**

Spray before and after **exercise** to prevent muscle injuries

SLEEP

TRAVEL

WORK

BURN

Massage with **sponge** before sleep to **prevent** pain from wrong sleep position

Massage with **sponge** during the work to prevent pain and **feel comfortable and relaxed**

Source: Team Analysis

Marketing campaign for **the product** should emphasize on its proactive and everyday usages

GOAL

To emphasize product purpose of being **everyday product** that is ready to **support every movement** along with enhancing the **sense of comfort**

Method

Video Content Marketing showing how the product can assist users in each activity

Content

Key message

**"2-way fighter,
your daily essentials"**

Details

VDO demonstrating how **2-way fighter** can make their daily life better in every moment

Channel

Benefits

1

Create **good understanding** of the product usage to the target within short time

2

90% of users say that product videos are helpful in the decision process

3

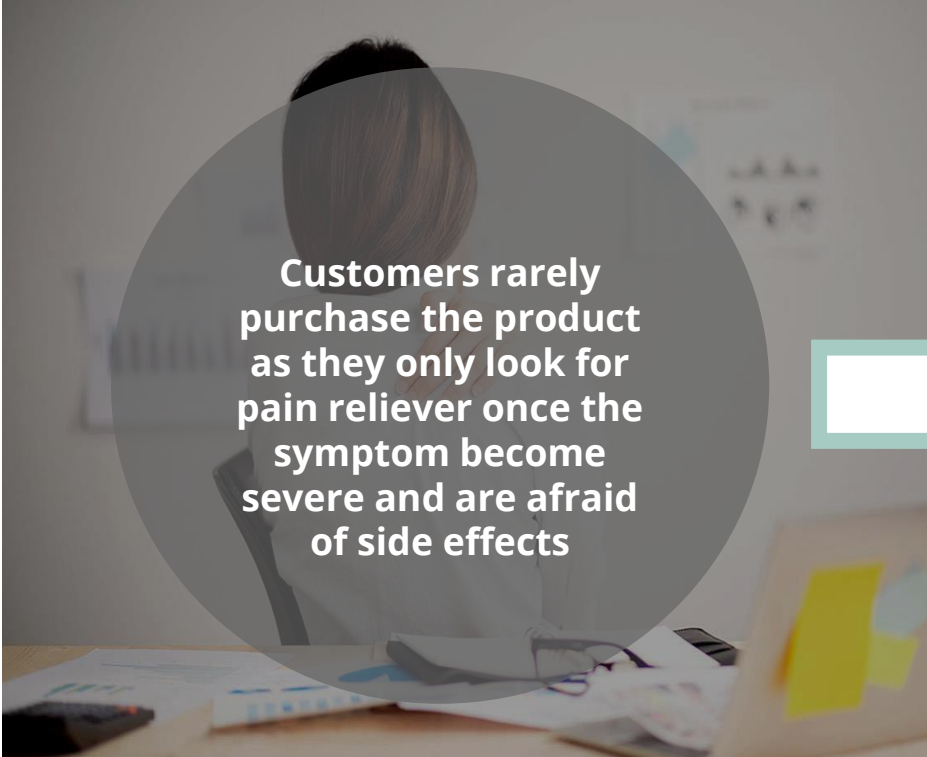

High level of engagement from **young people**

- Video posts on **Facebook** have 135% greater organic reach than photo posts
- **YouTube** reports mobile video consumption rises 100% every year
- **Tiktok** monthly active users that align with our target are around 3.33 million*

Source: Team Analysis, Hubspot, Social Media Today, *Tiktok (18.5m total active users x 60% bangkok x 30% young)

By implementing this strategy, *Office Fighter* will be able to successfully increase its usage among young office workers

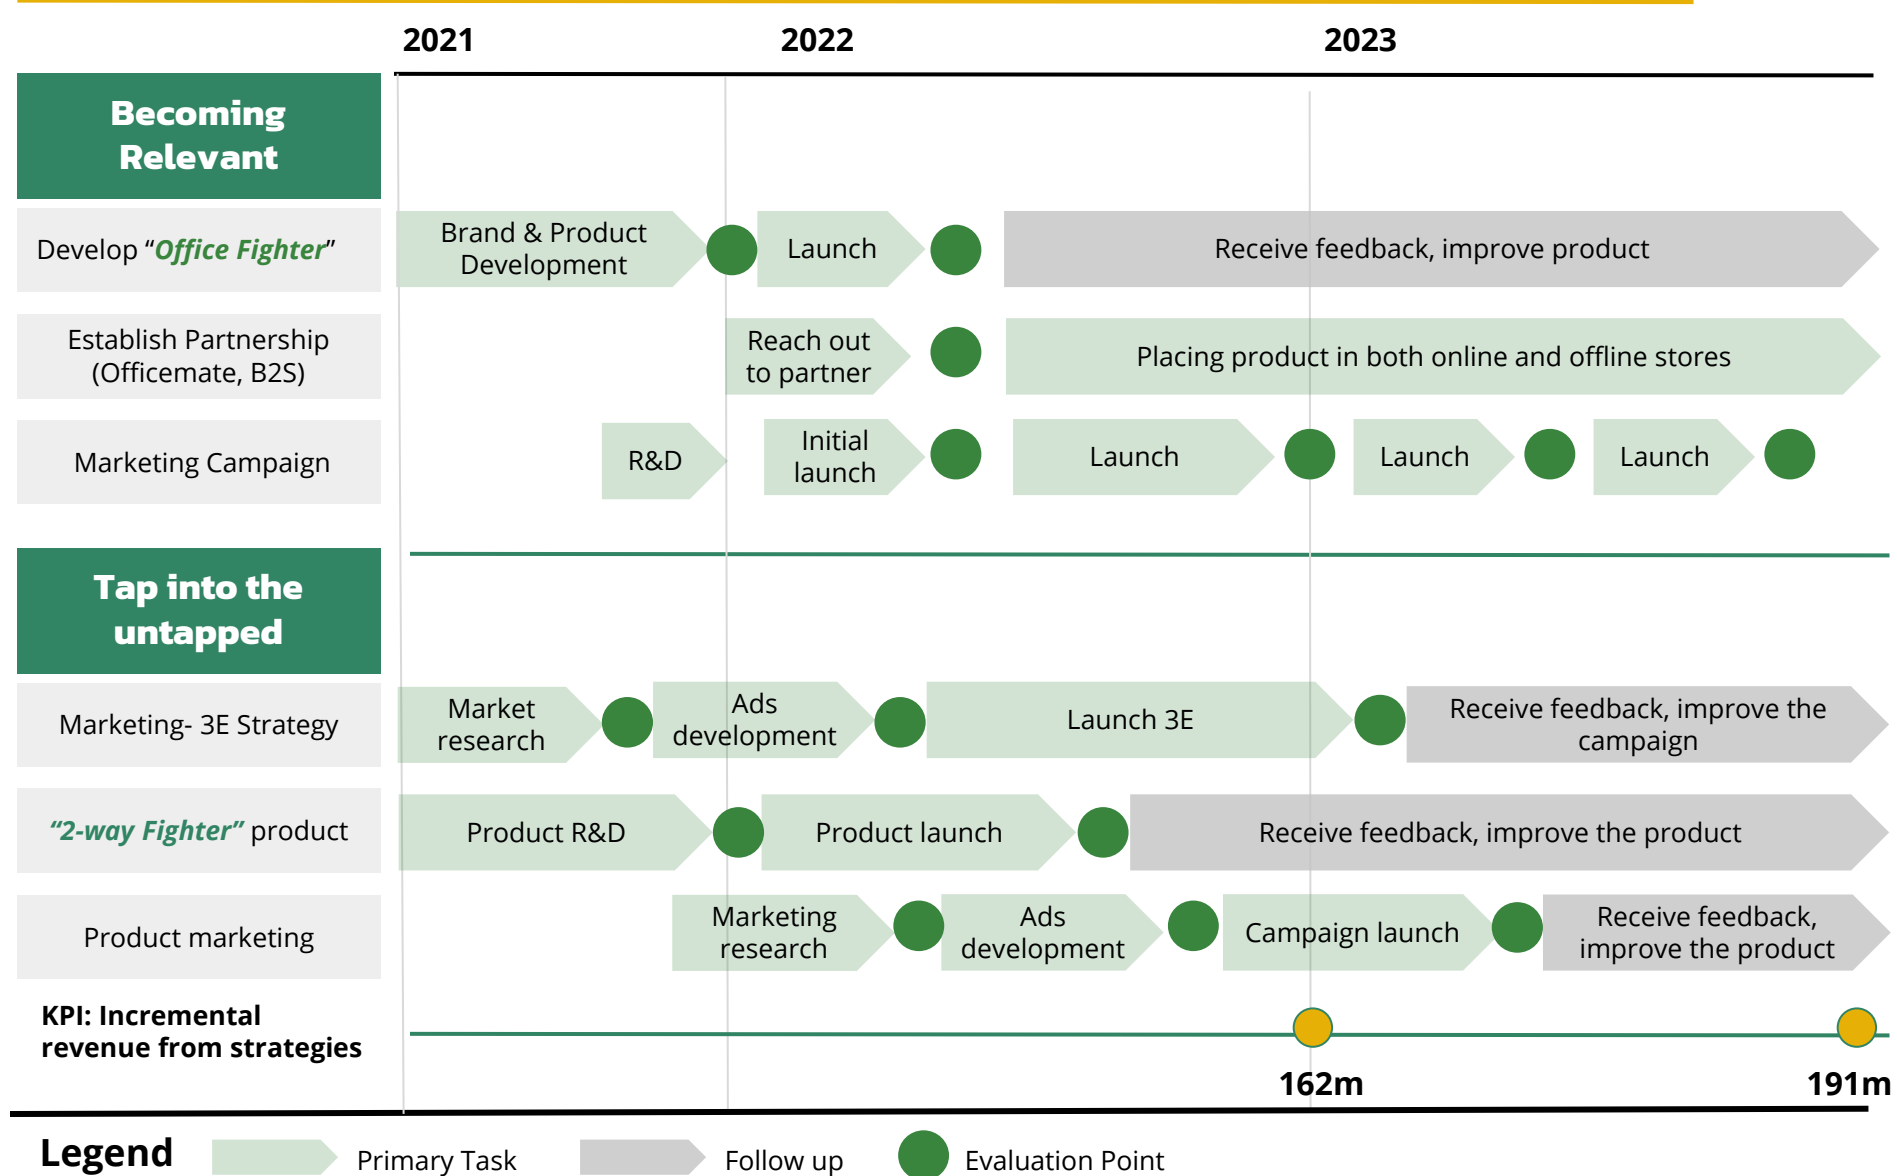

Customers rarely purchase the product as they only look for pain reliever once the symptom become severe and are afraid of side effects

Customers use the product more as it is an *everyday product* that help them feel more comfortable without any worries about side effects

FINANCIAL IMPACTS

Source: Team analysis

Severity

Risks and their Mitigation plan

Risk	Mitigation
1 Athletes and blue-collar workers lose loyalty in NMM as they don't see that Office Fighter and NMM are distinguished.	Heavily advertise that Office Fighter is just an endorsed brand under NMM. Office Fighter and topical NMM target different people.
2 Office workers still see NMM as an athletes-and-blue collar-focused brand.	Promote "Office Fighter" using targeted ads.
3 Competitors copy the idea of targeting office workers and developing a product specifically for them	Emphasize with customers that NMM is the first developer of this product, thus it has more knowledge about this group of customer.
4 Office workers still perceive pain relievers to have side effect and unnecessary to use.	Heavily promote that the product is suitable for everyday use and contains inflammatory-preventive ingredient

Source: Team Analysis

Our strategies will achieve THB 389m total domestic revenue by 2023

Financial impact

Devakam Apothecary could see revenue more than double by 2023
